## OBJECTIVE

My intent in applying for a job with this company is to achieve gainful employment and help a company grow. Please contact all my references. I have spent the last five years assisting my superiors and the companies we work with. I helped to build a reputation and a company I am proud of. I also love to learn new things and work with others to troubleshoot and assess different situations. I hope that I will have a chance to help your company grow as well.

---

## EMPLOYMENT

---

### TEAM LEADER (2004 – 2011)
